III. Transitions between Operational Postures

As the environment shifts, the University’s Senior Leadership Team will make determinations about when the University’s operational posture must also shift to either more or less restricted.

As risk levels decline:
   1. Shift from High Risk Posture to Elevated Risk Posture
   2. Shift from Elevated Risk Posture to Guarded Risk Posture

As risk levels increase:
   3. Shift from Guarded Risk Posture to Elevated Risk Posture
   4. Shift from Elevated Risk Posture to High Risk Posture

The lone function impacted by a shift in posture is the processing of I-9 forms. A shift from the High to Elevated Risk posture will trigger a pivot to in-person processing. To facilitate the pivot, an appointment schedule will be established for each of the three processing locations, which will be prepared for use by Facilities Management following the plans they establish and in accordance with the University’s Facilities Standards and Guidelines. Employees returning to campus to facilitate processing will complete training modules and comply with the University’s Health and Personnel Standards and
Guidelines. They will be notified one week in advance of the prospective need to return to campus to support I-9 processing, and will be informed of the time slot their presence is required on any given day 24 hours in advance of each required appearance.

A shift from the Elevated to High Risk Posture will prompt the resumption of processing I-9 forms remotely, as allowed by federal government.

IV. Stakeholder Outreach

Stakeholders of OHR include all University employees. Notification of OHR’s remote-work status has been communicated broadly, and is indicated prominently on the home page of our web site: https://www.hr.pitt.edu/news/office-human-resources-work-remotely-starting-monday-march-16.

All requests for Form I-9 processing go through our HR Shared Services team via the OHR contact form: www.hr.pitt.edu/contact-ohr. Employees requesting processing support will be instructed as to the relevant protocol to follow given the University’s current risk posture.

V. Monitoring and Amendment

Any revisions to this plan must be approved by the Vice Chancellor for Human Resources.
